### PROFESSIONAL SUMMARY

---

Software Developer with hands-on experience building responsive web applications and real-time dashboards using React.js, JavaScript (ES6+), HTML5, and CSS3. Promoted from intern to full-time within 6 months. Proven ability to integrate REST APIs, optimise component rendering, and deliver pixel-perfect UI across browsers. B.Sc. IT graduate (GPA 9.2) eager to contribute to a product-focused frontend engineering team.

### TECHNICAL SKILLS & SOFT SKILLS

---

- Core: JavaScript (ES6+), HTML5, CSS3, Responsive Design, Cross-Browser Compatibility
- Frameworks: React.js (Hooks, Context API, React Router, Lazy Loading), Node.js, Tailwind CSS, Material UI
- Data Viz: Highcharts, ECharts, Chart.js
- API & Tools: REST API, Axios, JSON, Git, GitHub, VS Code, Figma (Basic), Docker
- Testing: Chrome DevTools, UI Performance Optimisation, Agile

#### Key Soft Skills

- Problem Solving & Analytical Thinking
- Effective Communication
- Team Collaboration & Cross-functional Work
- Adaptability & Fast Learning
- Attention to Detail
- Time Management & On-time Delivery
- Self-motivation & Initiative

### PROFESSIONAL EXPERIENCE

---

#### Software Developer — Altius Technologies

Jul 2025 – Present

- Built 10+ real-time production monitoring dashboards used daily by manufacturing teams, replacing manual tracking and saving ~2 hours per shift.
- Integrated REST APIs via Axios to fetch and render live industrial data with Highcharts and ECharts, improving data accessibility for 20+ operations staff.
- Optimised React component rendering using useMemo and useCallback, reducing unnecessary re-renders by 40% and cutting page load time.
- Designed OEE dashboards (Availability, Performance, Utilisation) with Today vs Yesterday shift comparisons, enabling real-time production gap analysis.

#### Software Developer Intern — Altius Technologies

Dec 2024 – Jun 2025

- Built 5+ interactive dashboards with JavaScript, HTML5, and CSS3 featuring real-time data binding and dynamic UI updates.
- Created a reusable component library of 15+ UI components, reducing code duplication across projects.
- Resolved rendering bottlenecks in data-heavy pages, improving load speed by ~25%.

- Contributed across 6+ Agile sprint cycles, consistently meeting deadlines with zero escalations — leading to a full-time offer within 6 months.

## PROJECTS

---

### **Architecture Firm Website — [architecturewebsite-01.netlify.app](#)** — *React.js, CSS3, Netlify*

- Designed and built a fully responsive 8-page portfolio website from scratch using a mobile-first approach.
- Implemented lazy loading and image compression for fast load times on low-bandwidth mobile networks.
- Deployed on Netlify with continuous deployment.

### **PMS Software Application** — *React.js, ECharts, Highcharts, REST API*

- Developed a comprehensive Production Monitoring System (PMS) application integrating OEE and Machine Monitoring dashboards for end-to-end factory floor visibility.
- Built an OEE dashboard visualising Availability, Performance, and Utilisation KPIs with shift-based comparison views (Today vs Yesterday), enabling supervisors to identify performance gaps instantly.
- Architected a real-time Machine Monitoring dashboard tracking machine status, parts count, and utilisation across multiple production lines using Highcharts.
- Implemented auto-refresh API logic ensuring up-to-the-second data accuracy without full-page reloads, reducing time-to-detect machine downtime from minutes to seconds.

## PORTFOLIO

---

Live Portfolio: [my-portfolio-045.netlify.app](#)

## EDUCATION

---

### **B.Sc. Information Technology — Sankara College of Science and Commerce, Bharathiyar University**

Graduated May 2025 | GPA: 9.2 / 10 | Specialisation: Programming Languages & Technologies

## CERTIFICATIONS

---

### **React.js — 3 Month Certification Course**

November 2024 — Covered component-based architecture, React Hooks, React Router, and modern frontend development practices.

### **Skill Development Program — Programming Languages & Technologies**

2025 | Infosys BPM — 15-day intensive program covering core programming concepts and industry-relevant technologies.

### **Senior Grade Typewriting in English — Distinction**

2023-2024 | Government of Tamil Nadu Examination Board — Achieved distinction grade in the state-level typewriting examination.
